

HUGE PLANE WAVES IN AIR FALLS—DEAD, DYING AND INJURED CONVEYED TO HOS- PITALS AT HARRISBURG, PA.

Middletown, Pa., Jan. 11.—Five persons were killed and three injured when a big passenger plane crashed at Royalton, near the army air depot here today.

The ticket agent of the Pennsylvania railroad at Middletown said he saw the plane leave Middletown, waver in its flight and finally fall. He rushed to the scene and helped extricate bodies from the wreckage. Another man was dying, he said.

Were Sawed Out

The three injured men, including Lieut. Robert Angel, were rushed to a Harrisburg hospital. No cause for the crash of the plane has been determined.

The plane took off from here at 1:30 o'clock and headed south for Washington.

At a point about two miles from here near Royalton it crashed to the ground.

At the Harrisburg hospital it was reported Lt. Angel had both arms broken and severe head injuries.

The occupants of the plane had to be sawed out of the wreckage.

Lieut. Angel died at 3:02 p. m.

Roller Over Thrice

Middletown, Pa., Jan. 11.—A report was received here today that a passenger airplane carrying ten passengers, crashed at Royalton, near here, and rolled over three times.

An unconfirmed report had it that the wrecked plane was piloted by Captain H. A. Diner of Bolling Field, Washington, which arrived here at 10:30 this morning and was to have left about noon.

Ambulances were bringing the dead and dying to Harrisburg hospital at two o'clock.

COLEMAN CANADIANS LOSE EXHIBITION GAME TO GRAN- UM—PASS BOYS GIVEN 8-3 SET BACK—ACKROYD IS STAR OF GAME

Coleman Canadians travelled to Gratum Monday night and engaged the locals in an exhibition game. The visitors were given a surprise, losing the match by an 8-3 score.

The game was a good one and both teams were fast on their skates. Ackroyd of Gratum was the outstanding player and the heaviest scorer, notching three counters in quick succession in the second period. It was during this frame that the visitors lost out. Their defense seemed to crumble up and the locals went down and practically scored at will.

Heavy checking was the order of both teams. Ackroyd, Hoffman and Orton starred for the local aggregation, while Fraser, Gates and Stevens were outstanding for the visitors.

Orton opened the scoring for Gratum after seven minutes of play, taking a pass from Hoffman to beat Cologrosso. In the second period Ross scored off Steveluk's skate. Gates opened the score sheet for Coleman, and then the locals went on a scoring spree. Ackroyd scored three in a row, Gates again scored for the visitors, but Hoffman came back and added another for Gratum. In the third period McKinnon scored off Ross' pass; Fraser notched Coleman's third, and Hoffman took another pass from Ross and made Gratum's tally sheet read 8 against the visitors' 3.

The Lineup
Gratum—Goal, Stubbart; defense, Orton, Hart; forwards, McKinnon, Ross, Hoffman; subs, Ackroyd, Bayley, Marsh.

Coleman—Goal, Cologrosso; defense, Vejprava, Gates; forwards, Fraser, Steveluk, Kubin; subs, Chapman, Jenkin, Hoffman; Referee—M. Vant, Gratum.

JUST AS GOOD

"Do you keep silkoline?" asked a young wife of a Hiawatha merchant, as the World reports it.

"I'm sorry, mudam, but we are out of it today," explained the merchant apologetically.

"Oh, what a pity, and I wanted it so badly," mourned the young woman. "But if you haven't it, I'll try to make something else answer. Just give me two yards of coteline."

ALBERTA RESOURCES HUG- E—INVESTIBLE VALUE IS IN- VOLVED IN RETURN

Calgary, Jan. 9.—If the latest offer of the Dominion government in regard to turning over the natural resources of the province of Alberta is accepted, Alberta will acquire control of resources of almost inestimable value, it was stated at the office of the Dominion Lands branch on Wednesday morning.

No part of Canada, it is said, is more fortunate with respect to its power producing agencies than the prairie provinces and in the foothills of Alberta there are undoubtedly water power sites capable of meeting the demands of millions of people. At the present time there are several power sites on the Bow river, capable of producing sufficient power for a population of 300,000 people.

Mineral Resources

While water ways which provided not only power and permit a large fishing industry as well as providing the means of obtaining timber, constitute probably the principal natural resources in Alberta, mineral resources are also exceedingly important. These comprise principally coal, which provides an industry which places Alberta in a position whereby it is independent to some extent on agricultural production, Saskatchewan, for instance, almost entirely depends upon agriculture.

Gas and Oil

Listed among Alberta's natural resources which are assuming ever-increasing importance, are the gas and oil deposits. The oil fields in Alberta promise to develop in the next few years to an extent in which production can be favorably compared with any other fields on the continent, and oil officials declared.

TWIN BROTHERS COMMIT SUICIDE

London, Jan. 15.—Twin brothers, who had been inseparable in their preparation for their profession of physicians and who already had won recognition by their studies of cancer, were found dead today with a message pinned to the door of their flat reading:

"Life is not worth living."
They were Dr. Arthur B. Smith and Dr. Sydney M. Smith, the sons of an Edinburgh physician. They were 29 years old. The note pinned to the door was addressed to the nation and read:

"We have given our lives to cancer research. We have reduced ourselves to a state of poverty. Life is not worth living."
In the room were found two letters addressed to the coroner and the police.

GRAY IS GIVEN ACCLAMATION

Sarnia, Ont., Jan. 14.—Ross W. Gray, Liberal, was elected by acclamation today as member of parliament for Lambton West. When nominations closed no other candidate had been entered in opposition.

The vacancy was caused by the death of W. T. Goodison, Liberal, last December.

Whisky never made a man burn his neighbor's barn. He wants to burn the barn and gets drunk to generate courage for the job.

MORTGAGE SALE

PURSUANT to an Order of His Honour Judge A. M. MacDonald made the 25th day of December, A. D. 1928 in a certain action wherein Canadian Bank of Commerce is the Plaintiff and F. A. Adams is the Defendant, the following lands and premises are being sold:

The West half of Section thirty-six (36) in Township Eight (8) Range twenty-six (26) West of the Fourth Meridian containing three hundred and twenty (320) acres more or less. Reserving unto the Crown all mines and minerals.

That portion of the South East quarter of Section Five (5) in Township Nine (9) Range twenty-six (26) West of the Fourth Meridian which is not covered by the waters of Old Man River and excepting thereout that portion for Right of Way of the C. P. Ry. Company's Crows Nest Branch, which lies to the South East of a line drawn parallel with and 100 feet perpendicularly distant, on the line West side from the centre line of said Railway as same is now constructed across said land and lands adjoining the same and containing 4.55 acres more or less as shown Plan Railway 18. The land hereinafter described containing One hundred and thirty-one and forty-five one hundredths (131.45) acres more or less.

Reserving unto the Calgary and Edmonton Land Company, Limited, all mines and minerals including oil and natural gas, will be offered for sale by Public Auction on Saturday the 19th day of January, A. D. 1929 at the hour of twelve o'clock noon at the Court House, at Macleod, in the Province of Alberta.

The property will be offered for sale subject to a Reserve Bid and subject to the reservations contained in the Grant from the Crown and the existing Certificate of Title, and subject to all rates and taxes due and owing on the said land.

TERMS OF SALE 10% in cash at time of sale and the balance within 60 days with interest at 5% from the time of sale.

FURTHER PARTICULARS may be had from the Auctioneer or from the undersigned solicitor.

J. W. McDonald, K. C., Macleod, Alberta, Solicitor for the Plaintiff.

JOSEPH HICKS, Auctioneer, Barons, Alberta.

Approved: A. M. MacDonald, L. J. E. C.

CAPITAL GOSSIP AND PROV- INCIAL NEWS

Oil Production Sets New Figure

Establishing a new mark in the history of the province, Alberta petroleum production in 1928 reached the imposing total of 466,318 barrels according to figures published during the past week. This is an increase of 44.4 per cent over the 1927 production of 322,133 barrels. Wells in the Turner Valley Field established a high mark in the month of December with a production of 48,503 barrels. The increase over the 33,703 barrels recorded in November is made up largely by the output from the Ocala No. 1 Well. The total production in the province for 1928 was made up as follows:

Turner Valley—crude naphtha—374,705 barrels.

Turner Valley—Crude oil—104,604 barrels.

Wainwright Field—crude oil—6,910 barrels.

Alberta Leading in Land Sales
Alberta holds leading place among the western provinces in the land sales made by the Canadian Pacific Railway during the past year, nearly 60 per cent of the prairie total of 659,464 acres being in this province.

It is stated by officials of the company, a gain of 50 per cent is shown in the C. P. R. from land sales in the three prairie provinces compared with the previous year when 427,921 acres were disposed of. The volume in 1928 was the highest in any year since 1921, while a large percentage of the sales represented such tracts as the C. P. R. in the Alberta sales occurred in the Klamath district and in the territory opened up by the new Cutknife-Whitford line which has recently been completed into Edmonton.

Start Big Co-operative Hatchery

Two large hatchery units with a capacity of 15,000 eggs each have been shipped to Lethbridge where they will be installed in the new Lethbridge Northern Co-operative Hatchery. A membership of 150 poultry raisers is anticipated in the association. The output will be handled by the Southern Alberta Co-operative which will also likely provide accommodation for the hatchery and equipment.

Sheep Production in Alberta

The value of sheep on the farms and ranches in Alberta, which is now the third province in Canada in point of sheep production, is nearing the \$5,000,000 mark according to a bulletin "Sheep Production in Alberta" which has just been issued by the Department of Extension, University of Alberta. This booklet prepared by Prof. J. P. Sackville and Prof. J. E. Bowdler, is essentially practical and deals with the place of sheep on the farm, the various breeds and the care and management of the flock in detail. A valuable section dealing with sheep diseases prepared by Dr. P. R. Talbot, Provincial Veterinarian, has been included. Copies are available for free distribution to farmers and others interested in the sheep industry.

Alberta Cattle Shipped to Japan

Twenty head of choice registered Holstein cattle selected from a number of Alberta herds were loaded at Calgary and Edmonton on Thursday last for shipment to Vancouver and thence by the S. S. Yekahama for delivery to the Japanese government. It is expected that the cattle which will form the basis of improved dairy herds in Japan, will prove a forerunner of further similar shipments from this province to the Orient.

Slight Decrease in Dairy Production

The value of Alberta's dairy production in 1928 is placed at \$20,350,000 according to figures recently compiled by the Department of Agriculture. The decrease from the 1927 total of \$20,750,000 is attributed to the splendid crop prospects during the summer of 1928, the high price of beef and the consequent reduction in the number of milk cows retained on many farms. The year's production includes 14,325,000 pounds of creamery butter from 100 creameries at an average price of 37c a pound, 724,000 pounds of cheese from 9 factories, valued at 22c per pound and miscellaneous products including milk and cream for direct consumption, home made butter and cheese, skimmed milk and buttermilk on which a valuation of \$14,810,350 was placed.

Edmonton Busy Convention Centre

Edmonton, during the coming week, will be the scene of a number of gatherings of importance to residents of rural sections of the province. It is expected that over 500 delegates and possibly as many visitors will attend the annual U. F. A. Convention to be held in the First Presbyterian Church. Many of the delegates and others interested in the production of good seed grain will also attend the Provincial Seed Fair and the annual meetings of the Alberta Seed Growers' Association which will be held during the same week in the Chisholm Block and the Hudson's Bay Building respectively.

New Stations on Northern Line

The names of two Alberta citizens will be commemorated in the names of stations established on the new 25 mile railway extension from Wembley to Hythe. The first of these is Albright named in honor of W. D. Albright, Superintendent of the Dominion Experimental Station at Beaverledge. The second is Haulen which will suggest the name of Hugh Allen, M. L. A. for Peace River.

General Booth (Salvation Army) is Asked to Retire

London, Jan. 10.—It was officially announced today that the high council of the Salvation Army had asked General Bramwell Booth to retire.

The suggestion is that the general retain his title of commander-in-chief of the army and the honors and dignity attached to it.

Suggested Council Illegal

London, Jan. 10.—Salvation Army officials said today that the naming of a council by General Bramwell Booth to act for him, as the Daily Mail said, would be done, would be ineffective under the laws of the army. They explained that according to the high council had gone into session neither the general nor anyone else is empowered to make an appointment of any sort for the administration of army affairs.

This was the only comment they would make on the story published by the Daily Mail.

Reformists Gained Ground

Sunbury-on-Thames, England, Jan. 9.—After a solid day of routine session in the high council of the Salvation Army today, was understood to have begun discussion of the fitness of General Bramwell Booth, leader of the army, to continue in office in view of the condition of his health. The reformist group, headed by Evangeline Booth, was understood this afternoon to have 33 members on its side as against the 25 members headed by Mrs. Bramwell Booth, wife of the general, and Catherine Booth, his daughter.

It was said that the election of Commissioner Hay yesterday as president of the council, was carried on the lines of the division. Commissioner Hay belongs to the reformist group.

It also was said that Edward Higgins, chief of staff, who has been regarded as one of the supporters of General Booth, has sided with the reformists.

Reform Gains

Sunbury-on-Thames, England, Jan. 9.—The reform party in the Salvation Army was believed in some quarters today to have scored an initial triumph in the election of Commissioner Hay of New Zealand, as president of the high council meeting here. Commissioner Hay was understood to favor far-reaching reforms in the government of the army. These changes in government, together with the removal of General Bramwell Booth as commander-in-chief, were the major proposals put forward by the reform element which is headed by Evangeline Booth, commander of the army in the United States.

Sunbury-on-Thames, England, Jan. 12.—The high council of the Salvation Army again went into session today to receive the report of the deputation which visited General Bramwell Booth yesterday, bearing the council's resolution asking him to retire.

While the council was in session there was a sensational incident outside the Sunbury Court when one of the army's officers was challenged and was conducted into the lodge at the gate. He was Captain Herbert Hart, who it was said, had come to report a last minute compromise over the question of leadership of the army. He was not allowed to approach the council with the settlement plan.

Captain Hart, who formerly was secretary-general to Wm. Booth, the founder, told newspapermen that he was disappointed that the council refused to see him.

"I came here with a plan to settle this unfortunate business, but they won't allow me in," he said. "I object strongly to the general being dismissed in this way."

There was some indication today that General Bramwell Booth might refuse to retire at head of the Salvation Army and take the matter to the courts.

To Last Ditch

A dispatch to the Daily Herald from Southwold, where General Booth is ill, said that it was understood on good authority that he intended to fight to the last ditch against the high council's efforts to address the issue.

General Booth Promised the seven officials who presented a resolution asking his retirement, that he would answer their request on Monday.

1929 Highway Program — TO BE CONSIDERED BY GOVERNMENT SOON

Edmonton, Jan. 9th.—Mild winter weather has been on the side of the government's road work crews to such an extent that the contract for graveling on the Lethbridge-Macleod highway will be completed this week. Work on this contract has been carried on without interruption and is now almost at its end. It is the only piece of the road construction program of 1928 that has carried over into the new year, with the exception of a contract for heavy rock grading on the Crow's Nest section, near the British Columbia boundary which is still under way.

Hon. O. L. McPherson, minister of public works, says that the road program for 1929 will be considered by the government before the session of legislature but has not yet been put into final order form.

HUGE ADDITION TO PALLISER HOTEL

Calgary, Jan. 15.—Alterations to the Palliser hotel, including the addition of four more storeys to the present structure, will involve an expenditure of approximately \$1,700,000, it was announced in Montreal yesterday by E. W. Bentley, K. C., chairman and president of the Canadian Pacific Railway.

It will be recalled that when Mr. Bentley was in Calgary last summer, he stated that plans for the extension of the Palliser hotel were under consideration at that time.

The four additional floors will add 200 rooms with baths to the present accommodation of the Palliser. The present ballroom is to be almost doubled in size, while other changes will allow for considerably more public space on the ballroom floor.

On the main floor of the hotel a few rearrangements are also contemplated. These will be made necessary by the addition of more passenger and service elevators and the speeding up of the present elevator system.

KING'S PROGRESS IS MAINTAINED

London, Jan. 16.—It was officially stated at Buckingham Palace today that King George's slow progress was being maintained.

It is understood from an authoritative source that the king is now definitely stronger than at any time since the beginning of his illness. The increase in strength, however, has been very gradual and cannot be measured from day to day, but, his majesty is considerably strengthened. The difficulty of persuading the king to take nourishment has been largely overcome and for the past week he has been taking more food. This has been reflected in his increased strength, with the result, consequently, that considerable confidence now exists at Buckingham Palace.

GRANUM HOCKEY TEAM DEFEATS LETHBRIDGE CANADIAN LEGION TEAM ON GRANUM ICE

Lethbridge Canadian Legion team played the local team at Gratum Thursday night in an exhibition fixture but it seemed as if there was too much Ross, that worthy scoring three of the five counters scored by Gratum. The best visitors could do was get one, Reynolds scoring on a pass from Hodges in the third period.

The game was fast and clean and the fans went home quite contented that Gratum was the best team yet. The ice was fast and played well on a good rate. The bell was handled by M. Vant of Gratum, but as the play was fairly clean his penalizing work was not heavy.

Ross opened the scoring for the locals in a solo rush in the opening period and beat Yorko. Cradling around a few minutes later he picked up the rubber at the blue line and slapped the second into the net for Gratum. In the second period Ross, Hoffman and McKinnon went down and Ross notched the third on a pretty pass from McKinnon. The Lethbridge boys were putting forth every effort to wipe off the lead but looked like a whitewash but Hart and Orton on the local blue line turned aside their efforts. Just before the bell Robinson made it 4-0 for Gratum taking a pass from Hodges.

The visitors came on to the ice in the third period with the determination to do something and in some lightning-like work Reynolds, Hodges and Leckie through the Gratum line-up, Reynolds notching the first for Lethbridge on a pass from Hodges. This pepped the visitors up and play speeded up. Gratum played strong defensive hockey and no further scoring by the visitors. Lethbridge was permitted with about a minute to pass from Robinson giving Yorko no chance to save.

Lineup of Teams

Lethbridge Canadian Legion—Yorko, goal; Wilson, Francis, defense; Hodges, Webb, Slovisny, forwards; subs., MacLagan, Watson, Reynolds.

Gratum—Tobey, goal; Hart, Orton, defense; Ross, Hoffman, McKinnon, forwards; Bayley, Ackroyd, Robinson, Marsh, subs.

Attendance 400.

Referee—M. Vant, Gratum.

Plans to play the Calgary Canadians to play the Gratum team and the Lethbridge team was invited.

TIME TO THINK ABOUT SEED GRAIN

While admitting the importance of high fertility and good cultivation as essential for a good seed-bed, let us not forget the importance of sowing good seed, pure as to variety, free from weed seeds, of high vitality, and which has been treated for smut.

The time never was more opportune or more ripe for the necessity of sowing pure seed than it is today. With the over-increasing weed varieties that are on the market, the time is at hand when we must sow pure seed, if we expect to reap the highest returns from our farms.

The wideawake farmer does not wait until the last minute to prepare and clean his seed, and will always be found ready when seedling time arrives, to sow seed that has been cleaned, of good germination, and which has been treated for smut.

With the long winter days at hand, when the farmer has ample time to spare, why not crank the little gas engine, start the fanning mill going, get the seed grain ready, and be prepared for the big rush in the spring.

For those farmers who are intending purchasing seed grain, now is the time to get busy. Don't delay,

PRESIDENT OF HOTEL MEN ISSUES STATEMENT OUTLIN- ING PLANS FOR CLOSER SUPERVISION OF LICENSES

Following the first meeting of the directors of the Alberta Hotelmen's Association held in Calgary recently, President Chas. Trautwein has made the following statement:

Heretofore the Alberta Hotelmen have had a rather loosely knit organization, but at our annual meeting held in Lethbridge, Dec. last, a complete re-organization was effected.

This re-organization was possibly needed as it was apparent that certain hotelmen were not living up to the spirit of the Alberta Liquor Control act nor conducting their business according to the standard that has been generally accepted by the Alberta hotelmen as a whole.

While we believe that a very small per cent of our membership were at fault, nevertheless we sensed that their actions were causing some criticism from the public and from the Liquor board which reflected adversely on the hotel keepers of Alberta generally.

I am glad to say that we have now taken definite steps towards correction of abuses that have crept in, while taken in a measure as self-protection by ourselves, will, I am sure, impress the public of the sincerity of our organization.

We intend to discipline our members, who in the past have been careless in the discharge of the responsibility they owe the public. We as an organization, probably realize better even than the public itself, where the trouble has been in the past. We propose to co-operate more closely with the Liquor Commission in its single out the irresponsible or careless licensee.

With this end in view we are engaging a supervising secretary in whom the board and the public will have confidence.

We will indicate to him our general policy and the standards to which we will expect our members to adhere. He will immediately report on conditions as he finds them and make his recommendations to our directors as to the corrective measures he deems necessary.

It is our settled policy to maintain this supervisor in the future. To facilitate his work, each of our directors has been assigned a definite number of licensed places, which they will keep under personal observation and in this way the whole of the province will be supervised and reported on to our secretary. We will act promptly and definitely upon his recommendations.

Raise Standards
We feel that the standard of licensees will be raised. Those licensees who continue to be careless will be faced with the loss of membership in our organization, and we are prepared in the protection of the great majority of our membership, to go so far as to ask the Commissioner to cancel certain licenses which might be a continual source of worry to his department and which might reflect unfavorably upon our membership as a whole, and who by their actions are not prepared to keep faith with the public.

The past few years of trial have given our organization an opportunity to study the situation as a whole. We feel that now we are in a position to make the recommendations to the board which, so far as the hotelmen are concerned, will protect us as an organization from the thoughtlessness and carelessness of individual licensees.

We believe that Alberta has the best Liquor act in Canada, and that its administration under Mr. Dinwiddie has been outstanding in that he has the full confidence of the public and of our organization. So far as our members are concerned, they have, I believe, with the exception of a very few, the respect and confidence of the general public. It will be the endeavor of our directors to merit and maintain these feelings for the future.

Michi I just point out that at the time the present Act came into force hotels of this province were operating at a great disadvantage, which was reflected in their equipment and service rendered to the public.

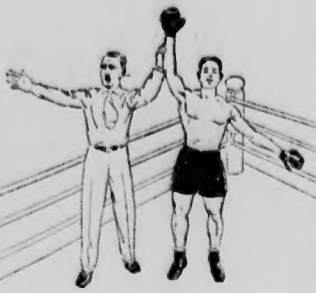

That there has been a wonderful improvement throughout the whole of the province is a fact generally admitted. Today Alberta has the best and most far-reaching hotel service of any province in the Dominion. I am sure that the public appreciate this as a fact, and realize that this has resulted through the sincerity of our members in realizing the responsibility they owe to the public. This has been manifested by the hotelmen generally, by modelling, rebuilding and re-equipping their premises and maintaining better service, and has been done as quickly as the individual business has warranted and justified.

but secure your seed early, then you will have no worries about seed grain when spring opens up.

In a seed grain survey made in Manitoba, one farmer was sowing seed supposed to be Marquis, but upon analysis, only 60 per cent was Marquis, while the other 40 per cent consisted of weed seeds, and other varieties of grain.

We cannot hope to produce grain that will maintain our high standards on world markets, if more attention is not given to the seed we sow.

THE DAUNTLESS QUEST

It will be a bad day for the race when the polar regions have been completely explored. There is a tonic to the daily stories of adventure in the land of everlasting snow that we will miss when the Arctic and the Antarctic have finally been mapped and catalogued to the last square mile.

Sir Hubert Wilkins, flying over wastes of ice and snow at the bottom of the world, is doing his bit to hasten that day. He discovers that Graham Land is separated from the Antarctic continent by a long arm of the sea, and notes half a dozen new islands which must go on future maps. Incidentally, he and Lieut. Carl Eielson risk their lives repeatedly to make these discoveries.

Now all of this makes very interesting reading, even though we who read it never heard of Graham Land before, have only the haziest idea where it is and can't for the life of us see what difference it makes whether it is part of the Antarctic continent or not. It is one of those places that we take on faith; we

shall never go there and we shall never talk with anyone who is going there.

But, for all that, the stories of Sir Hubert's discoveries make interesting reading. Despite the fact that he is covering the region in a modern airplane, his story is only a new chapter in the old, old story that was begun countless centuries ago by the first Phoenician captain who dared to poke his rickety craft out beyond Gibraltar and continued through the ages, by Columbus, Magellan, Froisher, Cook and Peary.

This story is more than a summary of brave deeds and dreadful hardships. It is one of our most priceless possessions; a long epic of the human race's insatiable thirst for knowledge, an eternal testimonial to its capacity for going to dark places and braving death in desolate seas.

The race is restless. It is never satisfied with what it has or what it knows. Always it must put itself to fearful bother and take long risks to add new facts to the collection. That these facts sometimes turn out to have no practical value makes no difference. The fact that men will peril their lives to get them gives them an extra significance.

To be dauntless and to be everlastingly inquisitive—these are two traits in us that will not die out. So long as they last—so long as the Byrds and Wilkins and Amundsen persist, daring death for knowledge about a land that the race can never use—we can have hope.

SCIENCE AND RELIGION

Established religion is suspicious of science; it is, indeed, sometimes frankly antagonistic, just as it was in the days of Copernicus.

At a recent meeting of American scientists, Professor Barnes urged a revision of the concept of God to conform to the increasing mass of knowledge which patient research is accumulating, and which is flatly at variance with many of the accepted dogmas of theological belief.

Speaking from the pulpit of St. Patrick's Cathedral, New York, Cardinal Hayes accepts this view as a challenge to the faith of the Church; science, as he sees it, would relegate the God of traditional theology to the limbo of primitive myths.

It is quite evident that Professor Barnes has no intention of ousting God from his place in the universe, he pleads for a revision of the concept only, and in this he merely advocates something that has been proceeding from age to age since the time when man first had an idea of a supreme being. The biblical records conclusively show that the God of Abraham was not the God of Isaiah, and that, in the evolution of the idea of God, the apostolic conception of God was immeasurably in advance of Abraham's tribal deity. Every step in this progressive evolution has been gained by the overthrow of so-called fundamental points of religious doctrine.

Science makes no claim to infallibility; some of its theories are based on assumptions, as, for instance, those of the ether and the structure of the atom. Scientific truth is nothing more than the most reasonable hypothesis which is justified by all the known facts relating to the matter under consideration.

If science should become dogmatic it would quickly stagnate; it is only by the abandonment of untenable positions and the constant revision of theories that progress can be maintained, and this is equally true of religious thought.

To theologians of the old school truth is fixed and irrevocable—closed revelation which is independent of, and cannot be modified by the discovery of new facts regarding life itself as well as of the universe at large.

To scientists, and their followers the search for truth is a progressive quest that leads into an ever-expanding conception of the majesty and mystery of the infinite. Science does not destroy a belief in God, but to preserve intellectual honesty it does demand a new concept, and a restatement of religious faith.

SCENT OF HEATHER

In wandering down an alien way
I saw a bunch of heather,
And, sudden, on a Scottish brae
I walked in Scottish weather.

The heart—no slave to sluggish
heels—
Has secret means of travel,
And need not under laboring wheels
Watch the slow miles unravel.

From Perth, Strathmiglo, Earn or
Ayr,
Not hills and seas together
Can keep Scots hearts, no matter
where
They feel the scent of heather.

Mary Sinton Leitch.

HANDICAP TO FIT

Shop Assistant: "Something in golf apparel, madam?"
Customer: "I would like to see some handicaps. Large size, please. My husband said that if he'd had a big enough handicap yesterday he'd have won the match."—Answers.

ONE AT EACH CORNER

"Do you know what a quadruped is, Billy?"
"Yes; an animal with four corners and a leg at each corner."

MIX TEMPTS FATE WITH DARING STUNT—WESTERN STAR TAKES MANY CHANCES IN LATEST PICTURE—EMPRESS TUESDAY AND WEDNESDAY—JANUARY 22—23

"Hello Cheyenne!" current attraction at the Empress Theatre, with Tom Mix in the leading role, is not "just another Western." The ability of Mix to extricate himself from the precarious situations in which he finds himself tends to disprove such a statement.

Mix thrills and chills his audience with his daring riding and smashing fights. The modern Buffalo Bill disregards all the laws of gravity as he runs, jumps and falls through unbelievable obstacles to aid his boss win a telephone monopoly.

It is safe to say that Tom has never been seen to better advantage as he seems to throw himself into the part with a zest that is bound to keep everyone on the edge of their seat.

In fact, everyone who plays with him seems to have caught this spirit and the result is a picture that will please the regular dyed-in-the-wool Mix fan and draw a host of new boosters.

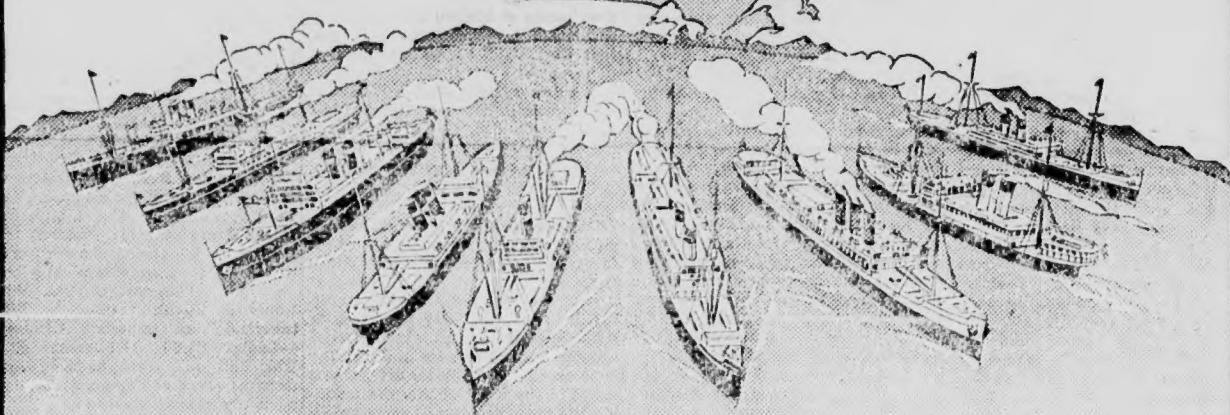

The cast includes many well-known names. Jack Baston, who supplies the villainy, had portrayed the "menace" in five other Mix productions. Caryl Lincoln, Mix's feminine lead, a newcomer to the screen, is seen in her second dramatic venture. Al St. John, who has convulsed thousands with his two-reelers, provides the comedy relief. The others are Martin Faust and William Carross. Gene Forde directed the production.

EIGHT LEADING WOMEN IN FILM

Howard Hawks has turned out another striking success in "A Girl in Every Port," Fox Films special, at the Empress Theatre Monday, January 21. This time it is a yarn about a hard-fisted, soft-hearted first mate of a tramp schooner, who gets himself into no end of difficulties through his romantic adventures in every port of call.

Victor McLaglen, of "What Price Glory" fame, is featured in the story with Robert Armstrong following him through the production, first as his enemy, then as his buddy. Eight leading women are another novel feature, each recognized as a real beauty. Howard Hawks, in addition to directing, is the author of the original story on which the picture is based.

Canada's Market — The Empire

ROLL down the map of the world. Follow the British Empire red through the continents and across the seas. There you see beckoning markets for Canada—where fewer trade restrictions intervene, where British tradition is appreciated, where Canada is known. There we can sell. There we can also buy.

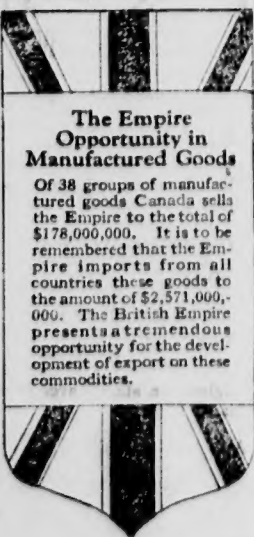

Canada is buying more Empire goods than ever before—things we cannot grow or make—raw materials for our factories. Since 1922 Canada's imports from Empire countries have increased 67 per cent. Last year we bought Empire goods to the value of \$250,000,000.

And what is Canada selling the Empire? Last year we shipped \$500,000,000 worth of our products to other British lands, an increase of 44.3 per cent. in six years.

The various parts of the Empire want more Canadian goods. A demand exists among them for Canadian manufactures, or for the products of Canadian lands or waters. But we must see that our exports are maintained at a rigid standard, that they are packed as consumers desire, and that our prices are right.

To encourage this growing Empire trade, eleven of Canada's twenty-four Trade Commissioners abroad, are working in Empire centres. They are familiar with the demands of the people among whom they live. Their services and the information they gather are at the command of any Canadian producer or exporter. To get into touch with Trade Commissioners, write the Commercial Intelligence Service, Department of Trade and Commerce, Ottawa.

When you buy Empire goods, you do a part in making possible greater Canadian exports to these sister countries. Where we sell, we must also buy.

The Empire Opportunity in Manufactured Goods

Of 38 groups of manufactured goods Canada sells the Empire to the total of \$178,000,000. It is to be remembered that the Empire imports from all countries these goods to the amount of \$2,371,000,000. The British Empire presents a tremendous opportunity for the development of export on these commodities.

"THE TIMES"

"DAWN"—THE LIFE STORY OF NURSE CAVELL BY SYBIL THORNDIKE IN STELLAR ROLE

The greatest human interest story ever told in the language all the critics have used in describing Sybil

Thorndike's wonderful characterization of the story of Nurse Cavell. Shortly after the completion of the picture an agitation was started in Germany to suppress the picture on the grounds that it would tend to keep alive the enmity between nations. However, after a pre view of

the photoplay all agitation was dropped as it was clearly seen that there was nothing in the picture to cause any ill will.

The story deals with the life and tragic death of Nurse Cavell during the war, taking one behind the enemies' line, revealing to the on-looker events that have never before been known. The dramatic sweep of the picture (Dawn) has never been equalled by any fiction ever portrayed on the screen. The execution of the immortal nurse being handled with subtle restraint that would give offence to no one of whatever nationality, without losing any of the pathos and drama so necessary to a true portrayal of Nurse Cavell's life.

We firmly believe that every person owes it to themselves to see "Dawn" depicting as it does, the life and death of the only figure which has emerged from the horrors of the Great War immortalized.

Dawn will be shown at the Empress Theatre for two days only, Friday and Saturday, January 18th and 19th.

Spring Point News

The Old Time dance held at the School House on Friday night last was a huge success. There were old timers there from Lethbridge, Granum, Pincher Creek, Hillsboro, Olsen Creek and Macleod. Some of these had not been in the district for years and a few even ventured to dance who have not danced for many a day, they could not resist the old tunes and the old time dances such as Spanish Waltz, Chicago Glide, Jersey Vassovienne, two steps, Polkas, Schottische with a few of the new dances mixed in for the younger set. The music was good with H. Stones at the piano, M. Russel violin and an old time fiddler from Summersview Mr. Aukel better known as Col. McLamont of Tennessee was floor manager and was the right man in the right place much credit is due Mr. Flomman and Mr. W. Dunbar for the fine way everything was carried out the only objection the room was too small for the crowd and many thanks is due the Ladies for the nice cakes, etc. they brought. It was agreed to make this an annual affair. The dance broke up at 5 a. m., everyone went home happy although a little tired.

Old Man 'Flu has passed on after making a visit to nearly every home here.

STAVELY WINS FROM MACLEOD

By clever stickhandling and speed on their skates, Stavely won a league game from the Macleod aggregation last night 8 to 3. A large crowd assembled at the rink, operated by the Elks lodge, to see the home team chalk up a well-earned victory.

Bouzyen and Derochie were outstanding on the ice, playing a clean consistent game. There was some clever hockey seen and the fans had plenty to thrill them. The ice was perfect.

The line-up:
Stavely—Allan, goal; Jenkins and Derochie, defense; Anderson, Graham, Bouzyen, forwards; Malchow, Haynes, Damson and Miller, subs.
Macleod—Hamilton, goal; McDonald and W. Hamilton, defense; Dowson, McLeod and Dillingham, forwards; B. Hamilton and Kirk, subs.

A TRIBUTE TO THE MEMORY OF THE LATE MISS A. M. WILSON

In the death of Miss A. M. Wilson Macleod has lost one of her most honored and respected citizens. No one could be more missed than she will be. Miss Wilson was very public spirited and took an active interest in every effort to benefit the community or advance the interests of the town. She seems to have been able to live above criticism, which few can; she was always spoken of in terms of praise. It is a great thing to live such a helpful life, to hold out an open and generous hand to all who needed her advice or financial assistance, to leave such a fragrant memory, and a host of friends who will never forget her. No one can tell of her many acts of kindness to poor and rich alike. Miss Wilson has passed into the spiritual world to meet The Lord Christ, and as she has trained her spirit here to loving service, she has joined that great company who serve Him day and night.

—A. Muir.

SMALL BEGINNING

Successful Man: "I tell you, sir, I worked my way up from the bottom. When I began business on my own account I had absolutely nothing but my own knowledge of things."

Listener: "Certainly a great success from so small a beginning!"

OBITUARY**DEATH OF MISS ANNA M. WILSON**

Gloom was cast over the town of Macleod Wednesday when it was known that Miss Anna M. Wilson had passed away at an early hour that morning. Miss Wilson had been in poor health for some months but she had been attending to business until a few weeks ago when she went to Calgary to the General Hospital for treatment. She returned a few days after Christmas, and was able to be around a little and was down town a few days ago.

Miss Wilson came to Macleod from Griersville, Ontario, in 1903 and commenced business in millinery and fancy goods. No one was better known in Macleod than Miss Wilson, she was everybody's friend, always bright and cheery with a smile and pleasant word for everyone. She was ever ready to help in every good work, devoting a great deal of time and energy to the interests of Christ Church, and also to the Rebekah Lodge, of which she was a charter member. These two organizations will certainly miss her loyal and active support and help. Only last August her sister, Mrs. Scott, passed away, she being an old time resident of Pincher Creek, but had removed to Macleod. Miss Wilson is survived by three sisters all living in Macleod, Mrs. Tripp, Mrs. Walker, and Miss Adalain. Her nephew, Vernon Tripp, arrived in Macleod from Calgary Wednesday, and Mrs. Layton Tripp, of Vernon, B. C., is expected to arrive for the funeral. The funeral will be held from Christ Church (Anglican) on Friday afternoon at 2:30. Much sympathy is being expressed for the bereaved sisters.

The rich get everything. You'll notice there little effort to improve the jails until the upper class began to use them occasionally.

The Old Year Still

Our financial year doesn't end until January 31st, and it is well that it doesn't, as we must get some collecting done before we close our books, and we are going to try to make January the big month. We are, in fact, forced to collect to get by with our bankers and the wholesale trade, and we hope we can collect without losing any friends. We must collect in any case, and we trust that any of our patrons who are behind in their accounts with us will make a special effort during the early part of January to get their accounts into shape. Accounts not paid by January 20th, or arrangements made for them, will be otherwise dealt with, and we hope there will be none in this class. Let us remain friends.

THE WHITE HALL

(OPERATING THE CHILD'S SAVING PLAN)

LOCAL AND PERSONAL NEWS

J. A. Booth was called to Lloydminster last week on account of the death of his step-father, J. Shore.

Joseph Horner is attending the U. F. A. Convention at Edmonton this week as the representative of the Rathwell U. F. A. local.

Mrs. Albert Mudman left this week to be present at the U. F. W. A. convention at Edmonton as the delegate from the Rathwell U. F. W. A. local.

Lawrence Dixon, who has been manager of Burns & Co's Meat Market here for the past year, has been transferred to Blairmore where he will manage the company's meat market at that point.

Mrs. Kendall and Master Walter, of Lethbridge, were in Macleod over the week-end visiting with Mrs. Kendall's parents, Mr. and Mrs. C. Clarke, on her return home Monday she was accompanied by her nephew Master Teddy Clarke.

The ratepayers of the Ewelme School District met for the annual meeting on Tuesday. There was a very small attendance present. Ed Nathe was re-elected Trustee, Harry Moorey re-elected Chairman, and R. J. E. Gardiner Secretary-Treasurer.

T. B. Armstrong, manager of the Royal Bank branch at Macleod, who has been suffering from stomach trouble left on Wednesday morning for Montreal to undergo an operation by Dr. Bazin, professor of surgery at McGill University. Mr. Armstrong will probably be absent for about six weeks.

Oscar Edwards, Granum, District Deputy Grand Master of the Odd-fellows Lodge of Alberta, was present and installed the officers of Mountain View, Lodge No. 4, Macleod, on Thursday of last week. He was assisted in the work by S. G. Stewart, P.D.D.G.M. Granum; Jake Russell, P. G. Granum; E. Forster Brown, P.G.M. Macleod; and H. V. Clarke, P.G., Macleod.

On Tuesday evening the United Church Brotherhood bade "God Speed" to one of their number, Mr. Stephen Kostuk, who is leaving Macleod for Winnipeg to take training in C. P. R. station agency work. This course will include English, mathematics, telegraphy and book-keeping with cognate subjects for use as superintendent of station work. Stephen will take with him the autographs of all the members present at the Tuesday meeting together with a letter of introduction from the pastor, the Rev. J. F. Knight, M. A., B. D., to the nearest United Church to his home in Winnipeg and a recommendation to business circles known to the pastor. The course will be about six months.

Empire—now being of the highest order—and with the American opened in the same class and under the same management and ownership promises even more for Macleod's prestige as a town with accommodation of the highest class for the traveling public.

The Young People's Society of St. Andrews Church met at the Manse on January 8th. There was a very good attendance and the following officers were elected for the year: President, George Pringle; Vice-President, Buster Dunn; Secretary, Jean Richards; pianist, Blossom Lyons. The programme committee consists of Mabel McCrae, Blossom Lyons, Ida Ferguson and Mrs. Dunn. The next meeting, to be held at the Manse on Monday, January 21st, will consist of vocal and instrumental selections, recitations and readings.

On Monday evening last about twenty-four of the friends and neighbors in the Howe district arranged a surprise party on Mr. and Mrs. Hugh McLean, when they got together to welcome them back from Edmonton and called at the McLean home in a body, each bringing a portion of the lunch. Cards were the main form of amusement during the evening after which the lunch was opened up. Hugh says: "I was going to make a speech but the cats were so good that I couldn't get my mouth empty long enough at one time to talk." The guests departed for their various homes in the wee sma' hours after having spent an enjoyable evening.

The students of the Macleod High school gave a card party and dance Monday night in the Elks' Hall. This is the first party the young people have put on this season, and the attendance was rather disappointing. A considerable number of the younger set came in for the dance, which helped to swell the finances. Everyone seemed to have a good time. The young people provided a dainty lunch. The winners at cards were: Ladies' first, Mrs. Earl McGregor; consolation, Alice Pinder; gentlemen's first, Donald Sutcliffe; consolation, T. Robinson. The Elks Lodge very kindly donated the use of the hall for the occasion.

CAMBRIAN (WELSH) CONCERT COMPANY

The Cambrian (Welsh) Concert Company that appears at the Macleod United Church on Tuesday evening, February 5th, under the auspices of the United Church Choir comes highly recommended and with a record of many successes in England and Wales and on the Continent. This will be a real treat to Macleod lovers of vocal and instrumental music.

MACLEOD ELKS ELECT OFFICERS

At the regular monthly meeting of the B. P. O. Elk Lodge No. 125, Macleod, held in their hall Tuesday night, the annual election of officers for 1929 took place. The following are the 1929 officers: Past, Exalted Ruler, F. P. Walshy; Exalted Ruler, D. W. Davis; Leading Knight, V. R. Baker; Loyal Knight, J. E. Ramsbottom; Lecturing Knight, C. K. Underwood; Secretary, R. A. Hamilton; Treasurer, Cliff Clarke; Inner Guard, Wallace Hamilton; Tyler, C. G. Hout; Trustees—J. Swinerton, F. J. Butler, Norman Grier. The installation will take place at the next meeting of the lodge.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION—YOU—YOURSELF

Last week it was pointed out that the beginning of the year is, according to custom, a natural time for stock-taking, and that it would be a good idea for each family to devote the time necessary for a health-stock-taking of its members. This week, we speak to our readers about themselves. What we say is meant for the person who is reading this article, not for someone else in the family. Do you know in what condition your body is? During the past year, did you go to your doctor and ask him to give you a health examination, or are you one of those who wait until they are sick before they think of their doctor? How many of your friends died during the past year, who thought, until a short time before they were stricken, that there was nothing wrong with them? We do not wish to cause you to worry about yourself, but we do wish to make you realize you are not able to say that, just because you feel well, there is nothing wrong with you or with any part of your body. It is good and desirable to feel well, but if you want to keep right on feeling so, the thing to do is to have yourself examined and so make sure that there is not something gradually developing which will temporarily put an end to your feeling well. Go to your doctor, not because you are ill, not because you fear some hidden disease, but because you feel well and because you want to keep well. It requires the skill of a physician, the knowledge gained by years of experience and training, to detect the changes which are the earliest signs of disease. It is at this early stage that treatment is so effective and that good results are secured, but treatment cannot be secured unless the doctor is given the opportunity to judge of its need. Be a health client of your family physician, not a patient. Start the year with a health examination, which is the best insurance for a year's health and a year's well-being. Questions addressed to the Canadian Medical Association, 184 College Street, Toronto, concerning Health, will be answered personally by letter.

KNOWS HIS STUDENTS

"Which are the students here?" asked the visitor.
"The ones who are not wearing coonskin coats," replied the president of the college.—Cincinnati Inquirer.
